<sup>\*</sup> Ontario requires all vaccinations listed under Mandatory. Other provinces strongly recommend vaccinations but may consider non-vaccinated students or students without all vaccines above. Non-vaccinated applicants must inquire first with CISS MLI.

<sup>\*\*</sup> The BCG vaccine may produce a positive result in a test for Tuberculosis. Canadian high schools may test incoming students for Tuberculosis, and the BCG is not a guarantee of immunity. Students testing positive for Tuberculosis may be required to have a chest x-ray or prove that he/she does not have Tuberculosis, or in some cases may be required to take medication. The cost of the x-rays or medication must be paid by the student as medical insurance will not pay these costs.
